

STEVEN CHANGCHERTA

BINUS UNIVERSITY COMPUTER SCIENCE | [PORTFOLIO](#)

OBJECTIVE

I am a third-year Computer Science student majoring in AI with an interest in computer vision usage in factory automation, especially focusing on quality control.

SKILLS

- Front-End:
 - HTML/CSS
 - React
- Back-End:
 - node
- Tools:
 - Figma
- Programming Language:
 - C
 - Python
 - Java
- Soft Skill:
 - Project Budgeting

EXPERIENCE

AI ENGINEER • FRUIT RIPENESS CLASSIFICATION • SEP 2025 - DEC 2025

- Led a team(3) that developed an image classification system to detect fruit ripeness(unripe,ripe,rotten) across multiple fruit types using ResNet18 CNN, achieving 99,4% accuracy

UI/UX DESIGNER • CATAT STOCK • FEB 2026 - JUNE 2026

- Designed and co-built(5) the frontend for CatatStock, a React based inventory management web app with AI powered stock prediction, enabling small business owner to track stock,transactions, and cash flow in one dashboard.

AI ENGINEER • GESTURE CONTROLLED MOUSE • FEB 2026 - JUNE 2026

- Built a real-time virtual mouse controller that maps custom hand gestures to cursor movement,click,and scrolling, using Google's MediaPipe Tasks API for hand landmark detection and a custom-trained Random Forest/MLP classifier via scikit-learn.
